- Associate's of science, AS
- Associate's of arts, AA

Certificates

Limited number of certificates

fulfilling the promise

Macon State College specializes in degrees designed to enhance the educational, economic, and cultural lives of Central Georgians. Serving the region since 1968 with an economic impact of \$162 million in fiscal 2010, Macon State offers 18 professionally oriented bachelor's degrees focused on the development needs of the community. With low tuition, robust financial aid, a commitment to the success of each student, and a vibrant residence life program, Macon State promises an affordable, challenging, and rewarding college experience leading to degrees of proven quality. Our success is measured best by the accomplishments of our graduates in their chosen professions, as well as by the contributions they make to their community.

graduates

The college has 3,461 bachelor's degree graduates, nearly 90 percent of whom live in Central Georgia. Total alumni of the college is nearly 13,500.

teaching

Some degrees programs require post-graduation tests to earn a license to get a job. Macon State's teaching excellence is verified by these test results (2010, most recent results available):

GACE test for new teachers:
 Macon State: 100% pass rate
 Ga. average: 99% pass rate

NCLEX test for new nurses:
 Macon State: 94.4% pass rate
 Ga. average: 89.6% pass rate

ETS test for business students:
 School of Business students' scores are often in the top 25 to 30 percent compared with 600 other schools of business from across the United States.

enrollment

Total fall 2011 enrollment * 5,702
 @ Macon Campus 4,897
 @ Warner Robins Campus 1,569
 @ Robins Resident Center 87
 * Unduplicated headcount. (Students are counted only once, regardless of how many campuses they attend.)

facilities

From 2000 through 2011, Macon State had \$107.5 million in building projects, testimony to the support for the mission of the college.

- 2000 - Student Life Center, \$8.7M
- 2003 - Warner Robins Campus, \$5M
- 2004 - Charles Jones Building, \$17.5M
- 2005 - Library renovation, \$5M
- 2009 - Professional Sciences, \$25.9M
- 2009 - Oak Hall at WRC, \$5.2M
- 2010 - College Station apts, \$13M
- 2011 - Education Building, \$24.2M

tuition

Category	Tuition	Notes
Research Universities	\$3,641	
Regional Liberal Arts University	\$3,236	
Regional Universities	\$2,367	
Macon State	\$1,388	Semester tuition, new students, Fall 2011
2-Year Colleges	\$1,235	

Macon State's affordability is one of our strongest attributes: It's possible to get a 4-year degree for less than \$15,000.

partnerships

From its earliest days, Macon State has recognized the vital relationship that exists between Robins Air Force Base and the Central Georgia economy. In 1970, only two years after the college opened, a resident center was established on the base for the educational needs of airmen, families and base workers. In 2003, the city of Warner Robins donated 72 acres to Macon State for a permanent campus. The base and the college have collaborated on a co-op program that directly prepares students for specific jobs at the base, and the college has introduced programs in government contracting, lean production and operations management – all in direct response to workforce needs at Robins.
